the exclusive Westinghouse unit with single-tube flexibility

You can switch from radiography to fluoroscopy in 17 effortless seconds with Monoflex, the spectacular Westinghouse single-tube x-ray unit.

It is so simple to do this that all you need do is shift the subcarriage to the head of the table and make 10 easy turns of the crank handle.

You get other important benefits, too. Subcarriage movement has a 10″ cross and 42″ longitudinal travel, plus three counterbalanced tower movements. The motor-driven table backs up as it stands up, saves valuable floor space. Tubearm motion of 14″ makes possible a whole new series of vertical skull radiography techniques.

For the complete story on "Monoflex" or other Westinghouse X-Ray equipment write to Dept. S.P., Westinghouse Electric Corporation, 40 Wall St., New York 5, N. Y. or call any of the following offices:

● Hanger wearers tell us that the natural appearance and the freedom of action afforded are the qualities of Hanger Artificial Limbs that have made them such an important part of their lives. Miss Ferris Jones, a nurse wearing a Hip Control Leg, says: "I am very enthusiastic about my work and study—I never forget that I could not be here—or anywhere that I'd like to be without my leg. I am able to carry on famously—and for me life has regained all its flavor—and my zest for living is just as keen as it used to be. Thank you for making this possible."

CAMP SCIENTIFIC SUPPORTS

For many decades it has been our privilege to work closely with physicians and surgeons in the design, improvement and manufacture of anatomical supports to meet the needs of their patients. The unique Camp adjustment feature insures proper firmness about the pelvis and controlled support of the abdomen, spinal column and gluteal region without compression. Write for your copy of the Camp "Reference Book for Physicians and Surgeons."

THE SANITARIUM

REST, RELAXATION, MEDICAL CARE

The Sanitarium has all the atmosphere of a fine hotel with individual rooms and tasteful decorations. A special feature is made of occupational therapy of all kinds with competent staff and facilities. Other features are large cheerful solarium, billiard room, complete gymnasium, complete bath and massage department. The spacious grounds include a nine-hole golf course. All the sanitarium facilities are open to guests who do not wish examination and medical care, but come simply for the baths and massages and rest and recreation. Modern medical equipment and superb location offer the combined advantages of a medical center and rural Spa.

A Humane Ideal

Nineteen years ago a private hospital for psychiatric disorders in Central New York was a daring community venture. Its need has been proven by calls for its service beyond its capacity. Its purpose, to serve acute recoverable conditions at costs within limits of moderate or affluent means, has prevailed.

PREFACE

IN THIS, THE FORTY-THIRD EDITION of the Medical Directory of New York, New Jersey, and Connecticut, are listed the names of physicians who have registered their licenses to practice medicine with the various County Clerks in the three adjoining states, New York, New Jersey, and Connecticut. It is published by the Medical Society of the State of New York and the State Medical Societies of New Jersey and of Connecticut have contributed their share to its compilation.

The deadline for the acceptance of information for this issue was June 1, 1948. Many changes have occurred since that date, which could not be included. It is regrettable that such a long lag exists between the editing and publication of the Directory. This is due to mechanical difficulties of printing and binding so large a volume.

Any information desired may be obtained through the three State Medical Society offices:

MEDICAL SOCIETY OF THE STATE OF NEW YORK
292 Madison Avenue, New York 17, W. P. Anderton, M.D., *Secretary*

THE MEDICAL SOCIETY OF NEW JERSEY
315 West State Street, Trenton 8, James E. Bryan, *Executive Officer*

THE CONNECTICUT STATE MEDICAL SOCIETY
258 Church Street (P. O. Box 1438) New Haven 10, Creighton Barker, M.D., *Executive Secretary*

As of June 1, 1948, the total numbers of medical practitioners listed in this Directory are, as follows:

State of New York			27,520
Greater New York		17,554	
Borough of Bronx	2,042		
Borough of Brooklyn	4,542		
Borough of Manhattan	8,492		
Borough of Queens	2,248		
Borough of Richmond	230		
State exclusive of Greater New York		9,966	
State of New Jersey			5,732
State of Connecticut			2,698

This Directory lists these physicians with special reference to the following professional data:

Location by towns

Name and address

Office hours and telephone

Medical school and year of graduation

Certification by American Boards in Medical Specialties and by National Board of Medical Examiners

Qualified Psychiatrists certified by New York State Department of Mental Hygiene

Qualifications for general and special work under the Workmen's Compensation Act of New York State

Membership in Medical Societies, national, state and local

Fellowship in the American Colleges of Allergists, Anesthesiologists, Chest Physicians, Pathologists, Physicians, Radiology, and Surgeons, and the International Colleges of Anesthetists, and Surgeons

Medical staff appointments in voluntary, state, and municipal hospitals (official titles)

The membership of the three State Medical Societies is as follows:

PRISCOL

**“. . . a valuable adjunct to the treatment of perip
vascular disease.”(1)**

Priscol hydrochloride, administered either orally or
terally, counteracts the constrictive effect of epinep
like substances which are formed at the vascular
neural junction.

Priscol therefore produces circulatory improveme
many cases of Raynaud's disease, Buerger's diseas
betic gangrene, and arteriosclerotic peripheral va
disease.

Patients should be closely observed until optimal do
established since paradoxical effects or orthostatic
tension may occur.

Issued: Tablets of 25 mg.; bottles of 100 and 1000.
10 cc. Multiple-dose Vials, each cc. containing 25 mg.

MEDICAL SCHOOL GRADUATION

The name of the school or college and the year of graduation are shown by the significant part of the name; e.g., graduation from Cornell University Medical College in 1910 is indicated as "Cornell 1910."

Readers are particularly cautioned that, where the names of certain medical colleges have undergone change, the name is herein used as it was on the date of the physician's graduation. Examples follow:

LIC Hosp—To and including 1930

LIC Med—1931 to date

NY Hom—To and including 1935

NY Med—1936 to date

NY Univ—To and including 1898

Bell—To and including 1898

Univ & Bell—1899 to 1934, inclusive

NY Univ—1935 to date

MEDICAL SOCIETIES

Abbreviations are used for membership in medical societies other than the County and State Medical Societies and the American Medical Association, membership in which is indicated by the Symbol ★ preceding the name. When the abbreviation indicating the field of medicine in which the society concerns itself stands alone, it signifies that it is a local society; e.g., in Buffalo listings the Buffalo Surgical Society is indicated as "Sur" only.

The abbreviation "Al" has a twofold meaning, either a medical society or a hospital appointment. When "Al" appears alone before the name of a hospital as "Al NY", it indicates membership in the Alumni Association of New York Hospital. If "Al" has an accompanying title with the name of a hospital as "Phys Al Mt Sinai", the medical staff appointment is Physician in Allergy at Mount Sinai Hospital.

MEDICAL STAFF APPOINTMENTS IN HOSPITALS

Abbreviations designate a physician's official title and department in the hospital with the word "attending (or visiting)" omitted; e.g., an Attending Dermatologist at Mount Sinai Hospital is indicated as "Derm Mt Sinai"; an Assistant Attending Dermatologist at Mount Sinai is indicated as "Asst Derm Mt Sinai."

The exception to this rule is found in the following; i. e., Columbia-Presbyterian, Flower and Fifth Avenue and New York Post-Graduate Hospitals in which the titles Attending, Assistant Attending and Assistant occur.

The official title "Cons", however, is one exception where the word "attending (or visiting)" is not implied; e.g., "Cons Path" should be read as "Consultant in Pathology", or "Consulting Pathologist."

HISTORY OF THE MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY, AND CONNECTICUT

THIS is the forty-third edition of the *Medical Directory of New York, New Jersey, and Connecticut.* The first was published in 1899 and distributed to the members of the New York State Medical Association and to the members of the New York and Kings County Medical Associations. Through a Committee on Publications, the New York State Medical Association had "joined in the reissue" of this publication, according to the Transactions of the New York State Medical Association for the year 1899, Volume 16, page 821.

Presumably, this statement of "reissue" in the Transactions of that organization had reference to a yearly volume called the *Medical Register of New York, New Jersey, and Connecticut,* which was published by the New York Medico-Historical Society and which had appeared yearly from 1862 to 1896. The title, *Medical Directory of New York, New Jersey, and Connecticut,* was not used as such until 1899.

In the 1900 edition of this Directory, the statement appears on the title page, "Published by the New York State Medical Association." The same statement appeared until 1906, when it was changed to, "Published by the Medical Society of the State of New York."

For those not familiar with medical society history in New York State, certain events deserve recital here. The Medical Society of the State of New York was organized under an act of incorporation in the year 1807. In 1884, owing to a schism among its members, a second state society was formed under the name of New York State Medical Association. Both organizations continued to function—with overlapping membership—until they were amalgamated in the year 1905. By their agreement the New York State Medical Association went out of existence, transferring its assets and good will to the Medical Society of the State of New York. Since that time the *Medical Directory of New York, New Jersey, and Connecticut* has been published by the Medical Society of the State of New York.

It is interesting to compare certain figures in the first edition in 1889 and in the forty-third edition in 1949, relating to the number of registered physicians listed in the Directory. The total number in the three states in 1899 was 11,625. In the *1949* edition the total number in the three states is 35,950. In the early edition these were distributed in the three states as follows: New York, 9,199; New Jersey, 1,481; and Connecticut, 945. In the present edition the figures are: New York, 27,520; New Jersey, 5,732; and Connecticut, 2,698.

The House of Delegates of the Medical Society of the State of New York on May 19, 1906, adopted the following resolution which has been strictly complied with in all succeeding editions: "Resolved, That in the *Medical Directory of New York, New Jersey, and Connecticut,* published by the Medical Society of the State of New York, only the names of registered physicians be inserted."
